SUMMARY

Adaptable and skilled Blockchain Developer, adept at transforming intricate blockchain concepts into easily understandable materials. Backed by a strong foundation in blockchain technology and quantitative trading, I offer technical proficiency and exceptional content creation skills. My established history underscores my dedication to delivering comprehensive blockchain documentation, user-focused platforms, and cutting-edge software solutions.

TECHNICAL SKILLS

Languages: JavaScript, Python, Solidity.

Frameworks: Flask, React, NextJS, Typescript

Databases: MySQL, MongoDB

Tools: Gitbook, ThirdwebSDK, Alchemy, GIT, GitHub, Docusaurus

WORK EXPERIENCE

BASE Captain | Flagship.FYI September 2023 to Present

- Led the team writing on BASE Ecosystem.
- Ensured content accuracy through close collaboration with diverse teams.
- Actively gathered and implemented user feedback via community polls.
- Timely updated content in sync with trends and activities on the BASE ecosystem.
