Profile

As a software engineer with 5 years of experience in the industry, I have a strong foundation in computer science and a passion for building high-quality, scalable, and efficient systems.

I have a proven track record of delivering successful projects, both individually and as part of a team. I am always looking to expand my skillset and learn new technologies.

Employment History

Software Engineer , Mintyplex , Lagos

JUNE 2022 – PRESENT

As a software engineer, I am skilled in design, development, and implementation of software systems. I have a strong foundation in computer science and experience working with a variety of programming languages, including Java, and Python. I am proficient in software development tools such as Git have a track record of writing high-quality, efficient code.

In my current role, I worked on DynastyPad, an NFT aggregator that fetches NFT collections from different marketplaces on Near Blockchain.
